Editorial

As we embark on another 365-day journey, RHK is truly grateful to share another year with our readers, fans, models, photographers, and everyone else who continues to support us.

2020 was filled with plenty of memories ... some good, some bad ... but memories nonetheless! The main takeaway from 2020, at least for me personally, was to count my blessings. Be grateful. Savor the moment. Breathe. Look for the positives in every situation. And hopefully I was able to convey that message to everyone I had an opportunity to work with. Even though we faced small obstacles and challenges, we had (and have) so much to be thankful for ... and a better day is always on the horizon!

With all of the challenges we faced in 2020, we were still able to continue our operations without interruption ... and had another great year! We released exclusive content every month, with over 25 all-new issues. We worked with new featured models, while some of our previously featured models returned with even hotter content!

All in all ... last year was a huge success!

In 2021, we hope to get back on our promo-tours, which give us the opportunity to meet and discover the world's hottest models. And, as always, our goal is to deliver the best magazines and products we possibly can ... our readers and fans deserve nothing but the best!

Again, thank you for everything ...

I greatly appreciate YOU!

What is your sexiest feature?
I would say my butt is my best feature because I'm more blessed in the back than I am up top!

I am just a small-town girl from Central Maine. I love hanging out with friends and family, being a social butterfly, enjoying my puppy and shopping or being outdoors. I love my fast paced, busy life! I've been modeling for over 3 years now and my interest in this industry continues to grow. It's really fun to get all done up and look at all your pictures at the end of the shoot. It has taught me a lot about myself and who I am as a person as well as increased my self-confidence.

How to Take a Stress-Free Holiday Road Trip

Holiday travel can be stressful, but it should be fun, too. Advance planning and proper car care can take much of the stress out of a holiday road trip and leaving you free to enjoy the ride.

Checklists for each aspect of the trip will help ensure that nothing important is left behind, and that you are safe and prepared in case of an emergency. When it's time for a holiday road trip, keep these tips in mind for smooth travels:

Check your ride: A complete car check before a road trip should include making sure the fluid levels are sufficient. Make sure wiper blades and the wiper mechanism itself is working properly. Check your lights, including brights, to be sure they are functional. And, last but not least, don't forget your tires. Tires are the connection between your car and the road, so be sure to examine the tread for signs of excess wear.

"Traction and tread are inextricably linked. The grooves in your tires are critical in helping to channel water away to allow the tire to grip the road," says Sarah Robinson, Michelin safety expert. "Making sure you're driving on tires with proper tread can be the difference between avoiding an accident and becoming part of it."

Be prepared: Equip your car with an emergency kit, including water, flashlight, blanket, jumper cables, extra windshield wiper fluid, cell phone charger, and emergency phone numbers for roadside assistance, as well as a contact person at your destination.

Map your route: Check your route in advance and, if possible, plan your trip for times with less traffic. If you are planning to use a map feature on your phone, use the voice component; if you don't have that, consult a paper map and get a sense of the route before you get behind the wheel.

Safety first: That means the driver focuses on driving. If you are the driver and need to check your phone, send a message, have a snack, or tend to a child or pet in the back seat, wait for a rest stop, or if necessary, pull over to the side of the road.

Watch the weather: Especially during winter holidays, knowing the weather in advance can help you plan to avoid a storm. If conditions are truly dangerous, the smart move is to postpone your trip until the weather improves.

Raised in a small town in Ontario, Canada called Cornwall. Modeling has been my passion … ever since I can remember, I've always been in front of the camera. I started modeling in the import scene since I have a love for cars, so I combined the best of both worlds :)

My other love is fitness which is my lifestyle. I'm so fortunate to do what I love and travel and meet some amazing people along the way who I now call my friends.

Hi, my name is Kym. I am from a small town called Texarkana, but currently live in Austin, Texas. I didn't get into modeling until I moved to Austin 5 years ago ... which, coming from a small town to a big city, is a culture shock!

I had been scouted by an agency and started to model.

How long have you been modeling?
5 years.

What inspired you to model?
I have always wanted to be a Victoria Secret model when I was younger; however since I am 5'7" that was a little out of my reach. However, I love swimsuit and edgy style shoots. Who knows, maybe they will let in shorter girls one day!

How do you describe your modeling lifestyle?
I feel I am always on the go. Modeling has provided me the opportunity to travel and meet new people.

What is your most memorable moment as a model?
I would have to say that my most memorable moment was when I auditioned to be in a fashion show for one of my favorite designers. I didn’t think I would make the cut since most runway models are 5'10 or taller. I was so excited when I made it and I got to appear in an interview on tv with him. That was a dream come true!

What are your short-term, and long-term modeling goals?
I want to start modeling coaching and teach others how to pose and walk. I think I can use my experience to help others with their dream of modeling.

What is your sexiest feature?
I have had a few. Hopefully this one will be my sexiest :)

What is your sexiest feature?
My eyes!

What you see isn't what you just get! I am a very versatile person, but the one thing that stands out the most and makes me happy is how I feel about life and how I treat everything in it. I have so many great attributes to contribute to this world and I am excited and ready to share my thoughts, experiences, and who I am while making great impacts wherever I go and whatever I do. I have a high connection to music. It is so empowering. I love singing and dancing, as it makes me feel free and can express myself in ways that make me feel good. I am grateful for now and hopeful for what more is to come! Thank you so much!
